Town of Lake City Monthly Report

December 2025

December has been a quite month for permits, just one for the town and 3 for the county. With the warmer temps' crews have been busy prepping concrete forms in anticipation of pouring concrete in the first week of the new year. The Coffin residence was the first to have cement trucks show up January 5<sup>th</sup>, and next week Climb restaurant will begin pouring footers and piers for the restaurant expansion project.

Town looks good overall except for the lack of snow and the early season ice flows. Our new admin building is moving forward, and our hope is we get to move in the first week of April. I heard that sidewalks and any last concrete that needs to be poured will be done in January. The project at the water treatment plant is moving along. The building is almost complete, still missing garage doors and some interior framing. It will not be long, and motors will be installed and up and running.

I look forward to another year as we say goodbye to 2025 and hello to 2026.

If you have any questions, comments, or concerns, please do not hesitate to ask.

Sincerely,

Gabe McNeese.
