Town of Lake City Monthly Report

August 2026

August has been a busy month for the Building Department with new permits, inspections and some code enforcement activities, the Town of Lake City is still surprisingly busy. New construction is still happening along with some projects that are finishing up, a few new fences here and there have been added to the downtown curb appeal. I have visited with several people in the past month and looks like a few new projects are in the works, one is a possible lodging venue across from the school.

The Wednesday market is still operating through the end of September and continues to provide a wonderful service for our community. Please support the local vendors who consistently show up week in and week out throughout the course of the summer.

I do not remember if I mentioned this last report, but the County Courthouse had its buried propane tank installed and is operational, along with the Sheriff's Department radio tower, which was a big deal, now operational. These jobs seem so easy to accomplish but they are not, lots of moving pieces on top of everyone's busy schedule, these turn into difficult tasks.

I believe we are doing our last Town/County cleanup this Saturday August 29th of this year. I will take this time to thank all of the volunteers who made this day possible, and to the Town of Lake City for offering this clean-up to the public, not many Towns or County's offer this kind of service.

Another month behind us, looking forward to September and the end of Summer 26', which has been one to remember. We have had fires, floods, evacuations, along with just the normal busy Lake City days, I am sure not the only one who is looking ahead to some calmer seas.

If you have any questions, comments, or concerns, please do not hesitate to ask.

Sincerely,

Gabe McNeese.
