

Deputy Clerk Report- June 2026

Junk Clean Up- The community wide junk clean up project was a huge success. We are now receiving calls from town residents ready for inspection. Community involvement was excellent and this could not have happened at all without the dedication and hard work from our volunteers and staff. Thanks to all who participated!! We are looking forward to a second opportunity to clean up the community on August 29th and 30th.

Athenian Dialogue- On June 17th I, along with Christina, completed my first PDO by participating in an Athenian Dialogue on the book *The Let Them Theory* by Mel Robbins. Along with many, many takeaways, this book is a great reminder to practice letting others be, say, and do what they will without taking it personally or getting emotionally wrapped up in things that we have no control over. I highly recommend this book to anyone and everyone who ever deals with other people on any level on a day-to-day basis.

HPC Project- I have completed converting over 200 architectural surveys to PDF format and uploading those to the website for the HPC to meet state compliance standards. There is still some fine tuning that needs to be done, but essentially, the files are available to homeowners and other interested parties to view or print.

Increasing office traffic- The office continues to be busy with walk in questions, concerns, and needs. Most common are questions concerning gym memberships, recreation activities, and permit inquiries. I really enjoy working with the community this way and helping to provide information about a wide array of questions, requests and concerns.

Showers- Office staff have been presented with the possibility of being able to provide showers for hikers, campers, visitors etc. since the use of the RV campgrounds is no longer an option. We have been brainstorming some ideas about how to adequately provide and be reimbursed for showers that are happening after hours. Key concerns are payment methods and access to the facilities.

150 Celebration Planning- Plans for our 150 Anniversary celebration on August 1st are ongoing. We will also be celebrating Arbor Day in conjunction with the 150 Anniversary celebration. The dunk tank has been reserved and plans for delivery and pick up have been secured. This will be a unique picnic celebration that will feature the Red Sky Drum Group, a good-ol-fashioned community potluck, nostalgic picnic games, informational and fund-raising booths, a mountain bike raffle, Lake City's Wild West Shooters and much more still in the works! Any Suggestions for a clever name for this event??
