Town of Lake City Parks and Recreation

Monthly Report October 2026

Ski Hill – We are still waiting on the tramway board inspection and also the wire rope inspection. Don and Danny will start to do all the maintenance checks here soon.

Armory – The Halloween Carnival was a success. It was well attended as usual. We used the new archery tag equipment and the pop darts as two new games for the carnival.

Ice Rink - The ice rink liner arrived**.** Danny is back from vacation and will start assembling the rink boards sometime in November. We are still shooting for Thanksgiving.

Ice Wall - For some reason we have had numerous shorts in the electric heat tape lines this season. I have installed probably 40-50 240 volt plugs to try to chase down shorts. The plugs cause other problems when moisture gets in them. We are waiting for all the rain to stop so everything airs out and we can get the plug connections sealed up as much as possible. Hartman and I have all the pumps hooked up and tested. We are waiting for cooler daytime temps so we aren't wasting electricity. The pumps will probably be turned on around November 10th.

Parks – The Town Park bathrooms were closed in mid October. The sprinklers were turned off and blown out in both parks. Danny will be checking out the town park Christmas tree to make sure it's ready for the tree lighting.

Noxious Weeds - Nothing to report.

Trees – I may ask the tree trimmers to trim trees again after the first of the year as long as they can tell what they are trimming. It seemed to work well with them here when there's no traffic or people.
