DIRT, Town and Brian -

Just sent out last call for donations. We have a \$12,993. Just received a \$500 donation so the gap is down to \$12,453. We will take donations for another week or 10 days or so and then close out the project.

I received a call from Bryce this morning. The playground installer crew will be on site tomorrow to switch out the walk-up portion and several of the kick plates (these had been harmed during shipping but were installed anyway during the original; we knew these replacements would be coming).

I am meeting with Brian tomorrow morning to talk through the entrance.

Once the Town pays the second and final invoice, we will complete all required grant reports.

Thank you
Kristie
