Lake City Town Manager

Mayer and trustees of the town of Lake City

Member of the Lake City Planning and zoning commission

Dear friends,

After something like 20 years of service on the Town Planning and zoning Commission, I believe it is time to step away from that position. I am somewhat technologically illiterate and keeping up with all the material that is required for me to be an informed participant in the decision-making process is becoming quite difficult. I said that I would remain on the commission until the first shovel went into the ground for the affordable housing project, but I think it best that I retire and let a more computer-literate person fill my position. It has been an honor and a joy for me to serve Lake City in this capacity and I am grateful for the opportunity.

Richard Piltinsgrud has expressed a willingness to assist with the plans for this project and it is my hope that he would become an official member of the Planning and Zoning Commission as it is brought to fruition.

Sincerely,

Mary Nettleton

Lex, would you send this to P and Z and the board of trustees, please
