To: Town of Lake City Board of Trustees

I would like you to consider appointing me to fill the vacant seat on the Board of Trustees. Although I lost the mayoral race, I did not lose my desire to serve the town that I love.

It would be easy enough for me to walk away from this, concentrate on all the other things in life, but I have more to offer. I have a unique combination of experiences that bear directly on the job of a Trustee and can serve our mission.

I have represented citizens that have often felt that they did not have a voice on the Board. I understand that feeling. I want to make sure that people know that their government represents all sectors of our community and that we are fighting for more transparency, responsiveness, and inclusiveness. Tomorrow can always be better than today.

Thank you for your consideration,

Jodi Linsey
