Date: November 2026

From: Lake City Historic Preservation Commission

Subject: November Monthly Update

The HPC continues its regular work with no major updates for November. No COA applications were submitted for review for the November meeting and therefore the meeting was cancelled.

Information has been submitted to the Town Clerk for the posting of open HPC positions to solicit interested parties. Three open positions are included in that advertisement for the term starting in January of 2027.

The HPC is investigating steps to be taken to secure for History Colorado CLG grant funding for consultative services from qualified preservation professionals for the purpose of updating the HPC Design Guidelines to improve clarity of requirements. The HPC will be requesting BOT approval to submit a grant application for non-matching funds.

Sincerely

Kenneth Howard

Vice Chair - HPC
