Boardwalk ordinance

Kristine Borchers <kristineborchers@yahoo.com>

Tue, Jul 26, 2022 at 3:55 PM

To: Alexander Mulhall <alexandermulhall@townoflakecity.co>, Vance Lipsey <townmanager@townoflakecity.co>, Doug Hamel <doughamel@townoflakecity.co>, Dave Roberts <daveroberts@townoflakecity.co>

Hey, guys --- I've recently reached out to talk further about the boardwalk ordinance. The requirement of a business owner to maintain the boardwalk within the public right-of-way is the reason that public funds - such as a DOLA infrastructure grant - could not be used and why we sought to use the Main Street Open For Business grant. The DIRT board spoke last week about the possibility of "rescinding" or "suspending" that ordinance while the Town (with DIRT's support) submits an infrastructure grant; if awarded, constructs the boardwalk, and then the Town would "remove the suspension" or "reinstate" the ordinance so that business owners would keep up on the maintenance of the work? The concept being that now that boardwalks are in such disrepair, could the Town (as the local government) step in and help upgrade which individual businesses struggle to do due to the financial cost; and through maintenance agreements with business owners, perhaps we could all move forward together? It's just a thought that we hadn't really considered prior so wanted to share that with you as a possible solution. The DIRT board also wanted me to pass on to the Town Trustees how excellent the stamped concrete boardwalks look and feel and how they have improved the safety of pedestrians. We have no idea if this type of "suspension" would or wouldn't be allowed which would be a question for your council. We are happy to assist with grantwriting or other fund-raising activities to address, if needed. DIRT is a Contribution Project for the next five years so private donors receive additional tax benefits and this improvement to infrastructure for consumers could be a way to encourage investment. Please let us know; thank you so much, have a great evening, Kristie Borchers

To: Vance Lipsey <townmanager@townoflakecity.co>

Cc: Alexander Mulhall <alexandermulhall@townoflakecity.co>, Dave Roberts <daveroberts@townoflakecity.co>, Doug Hamel <doughamel@townoflakecity.co>

Hi Vance,

In the event the Town decides to maintain the boardwalk it would likely be responsible for any known hazardous conditions that arise and any injuries resulting from those known hazardous conditions. It would also be responsible for the costs incurred in repairing and maintaining them, as well as things like snow removal. In my experience, communities with wooden boardwalks seem to enjoy them and they bring a lot of old west/small town charm, however, they are maintenance intensive.

Another client, Grand Lake, has boardwalks and requires the shop owners to maintain and repair them and it has historically seemed to work well. Here are some of the key provisions of their code for your consideration:

11-4-2 - Duty to Keep walks Maintained and Clean.

SHARTERLINDS MUNICIPALITY OF THE

- It shall be the duty of all property owners of every premises within the Town where walks exist or are later constructed or reconstructed to keep the walk maintained and in good repair according to the specifications contained in this Article.
- It shall be the duty of all property owners of every premises within the Town to keep said walks free and clear of snow, ice, mud, debris, rubbish, filth, or any object of obstruction which can impede normal pedestrian traffic flow unless said obstruction complies with this Article.

11-4-3 - Annual Inspections of Walks to be Performed.

SHARTERLIND SMUHLL CONDO INC

- At least annually, the Town Manager shall cause an inspection of all existing walks within the Town to assure that said walks are in full compliance with the provisions of this Article.
- Walks found not to be in compliance with the specifications contained in this Article are declared to be deficient and it shall be the duty of the property owner to repair or reconstruct the entire walk for the length of the property according to the specifications of this article.

Legal Attendance at 8/17?

Dan Krob <dan@kroblaw.com>

Tue, Aug 16, 2022 at 5:24 PM

To: Vance Lipsey <townmanager@townoflakecity.co>, Alexander Mulhall <alexandermulhall@townoflakecity.co>, Dave Roberts <a href="mailto:kolorism: colorism: co

Good evening,

One thing we did discuss, that I have finally had a chance to run by some colleagues, was the issue of a moratorium on short term rentals. Should the Trustees decide we want to look into this or do it, we need to ensure we cite the reason(s) we need such an action, (2) why such action is urgent, and (3) discuss a specific time for the moratorium.

I have attached an example from Salida. I'd suggest we do a 6 month maximum, rather than their 9. Whatever the Board decides, we need to be transparent with the public and not rush it so we are not open to challenges by anyone who already has a license and a reasonable expectation to keep that license.

Please feel free to call if you have concerns.

Thanks Dan 970-231-8026

ord_2021-11_str_moratorium_w_council_amendments.docx

CITY OF SALIDA, COLORADO ORDINANCE NO. 11 (Series of 2021)

AN ORDINANCE OF THE CITY COUNCIL FOR THE CITY OF SALIDA, COLORADO IMPOSING A TEMPORARY MORATORIUM ON THE SUBMISSION, ACCEPTANCE, PROCESSING AND APPROVAL OF ANY APPLICATION FOR A SHORT-TERM RENTAL LICENSE, AND DECLARING AN EMERGENCY

WHEREAS, the City of Salida, Colorado ("City") is a statutory city, duly organized and existing under the laws of the state of Colorado; and

WHEREAS, pursuant to C.R.S. § 31-15-401, the City by and through its City Council ("Council"), possesses the authority to adopt laws and ordinances within its police power in furtherance of the public health, safety and welfare; and

WHEREAS, pursuant to C.R.S. § 31-23-301 the Council also possesses the authority to adopt and enforce zoning regulations; and

WHEREAS, pursuant to such authority, the City has previously adopted certain regulations concerning short-term rentals within Chapter 6 and Chapter 16 of the Salida Municipal Code ("Code"); and

WHEREAS, the City of Salida is now experiencing a severe shortage of housing and long-term rental units for the local workforce and the Council finds that the diversion of the existing housing stock and any newly constructed housing into the currently available pool through the short-term rental license process otherwise necessarily contributes to the City's housing shortage and has a direct negative impact on the availability of affordable housing; and

WHEREAS, the City is currently engaged in a comprehensive review of City policy regarding housing of all types and short-term rentals, its impacts, availability, solutions and options that may lead to modification to land use regulations, business licensing requirements, staffing, funding and other regulatory measures; and

WHEREAS, the Council finds and determines that imposing a nine (9) month temporary moratorium on receiving applications for review and issuing or approving short-term rental licenses is necessary to preserve the status quo while the Planning Commission and City Council completes its review of the City's regulatory framework for short-term rentals and its impact on the housing crisis, and that preserving the status quo will promote the public health, safety and welfare by allowing a deliberate and well-reasoned decision making process; and

WHEREAS, the Council finds that the impact of a temporary moratorium on short-term rental license applications will not unduly prejudice the interests of the owners of housing units because property suitable for short-term rental uses are equally suitable for residential uses, either owner occupied or through the long term rental market; and

WHEREAS, a nine (9) month temporary moratorium is a reasonable length of time and

no longer than necessary for the City to properly review, research, develop, adopt and implement any applicable recommendations, amendments and regulations regarding housing, affordability and short-term rentals; and

WHEREAS, the Council also finds and determines that the subject regulations concerning short-term rentals are necessary to the immediate preservation of the public health, safety and welfare and that this ordinance should therefore become effective upon adoption, as authorized by C.R.S. § 31-16-105.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL FOR THE CITY OF SALIDA, COLORADO as follows:

- **Section 1.** The City Council incorporates the foregoing recitals as conclusions, facts, determinations and findings by the City Council.
- Section 2. Imposition of Temporary Moratorium. Effective immediately, upon the date of this Ordinance, a moratorium is imposed upon the submission, acceptance, processing, and approval of all applications for short-term rental licenses within the City of Salida. No application for a short-term rental license shall be submitted to or accepted by the City, and no such application shall be reviewed or license issued or approved in response to such an application. This moratorium shall not apply to those properties governed by already-existing Planned Development Agreements, Subdivision Improvement Agreements and Annexation Agreements with the City.
- <u>Section 3.</u> <u>Effective Date; Expiration.</u> The moratorium imposed by this Ordinance shall commence as of the effective date of this Ordinance and shall expire three (3) months thereafter, unless repealed prior to that date.
- Should any one or more sections or provisions of this Ordinance or of the Code provisions enacted hereby be judicially determined invalid or unenforceable, such judgment shall not affect, impair or invalidate the remaining provisions of this Ordinance or of such Code provision, the intention being that the various sections and provisions are severable.
- <u>Section 5.</u> <u>Emergency declaration.</u> Pursuant to C.R.S. § 31-16-105, the Town Board hereby finds, determines and declares that an emergency exists and that this ordinance is necessary for the immediate preservation of the public health, safety and welfare and the financial well-being of the City because there must be a data-driven analysis conducted on the impact on City residents, workforce and property owners concerning short-term rentals and affordable housing, and therefore, this ordinance must be passed as an emergency ordinance.

INTRODUCED, READ AND PASSED, ADOPTED AND ORDERED PUBLISHED IN FULL in a newspaper of general circulation in the City of Salida by the City Council this 20th day of July, 2021.

Mayor P.T. Wood

Minutes

Meeting Name: Regular BOT Meeting

Meeting Start Time: 5:30 PM MDT

Meeting Start Date: 8/3/2022

Meeting End Time: 8:20 PM MDT

Meeting End Date: 8/3/2022

Meeting Location: Armory Multi-Purpose Room 230 N. Bluff

Agenda:

I. Regular Workshop – start time 5:30 pm

- A. Discussion about 3rd Street Project
- B. Discussion about Capital Improvements Plan
- C. Town Employee Comments on FAMLI
- D. Discussion about Town Employee Housing and Affordable Housing
- E. Discussion about Mural Ordinance
- F. Discussion about Food Trucks Committee Reports

Workshop end time -7:11 pm

II. Regular Meeting

- A. Call to Order: 7:19 pm
- B. Roll Call: Present: Trustees Bruce, Hamel, Heaton, Horn, Kendall, and Woods. Absent: Mayor Roberts.
- C. Approval of Minutes July 20, 2022: Motion made by Trustee Bruce, seconded by Trustee Kendall. Motion passed with all present voting yes in a roll call vote except Trustee Heaton who abstained since he was not present at that meeting.
- D. Approval of Bills Payable totaling \$302,425.73. Motion made by Trustee Heaton, seconded by Trustee Bruce. Motion passed with all present voting yes in a roll call vote.

E. Employee Reports:

- 1. Recreation Director (Hake)
- 2. Public Works Director (Johnston)
- 3. Town Clerk/Treasurer (Mulhall)
- 4. Town Manager (Lipsey)
- 5. Building Official (McNeese)
- 6. Sheriff's Report (Kambish)
- 7. Mayor
- 8. Trustees
- F. Correspondence Received NONE
- G. Citizen Communication NONE
- H. Additions to the Agenda
 - Discussion and Possible Action to Direct Staff to Pursue the Purchase of 621 Water Street and to Apply for Grant Funding. Motion made by Trustee Bruce, seconded by Trustee Horn. Motion passed with all present voting yes in a roll call vote.
 - 2. Discussion and Possible Action to Direct Staff to Apply for CHFA Technical Assistance Grant for the Workforce Housing Project by the Medical Center. Motion made by Trustee Horn, seconded by Trustee Bruce. Motion passed with all present voting yes in a roll call vote.
 - 3. Discussion and Possible Action to Allow Food Trucks in Town and to Continue to Work on Creating a Food Truck Ordinance. Motion made by Trustee Bruce, Seconded by Trustee Kendall. Motion passed with Trustees Bruce, Hamel, Kendall, and Woods voting yes, Trustee Heaton voting No, and Trustee Horn recusing himself from the vote.

III. Action Items

A. Discussion and Possible Action to Approve Ordinance 2022-06 Placing an Moratorium on Enforcement of Town Code Chapter 21 Article 2 Section 21-23(a)(5) regarding Water and Sewer Plant Investment Fees. Motion to approve

- and allow water and sewer taps purchased before August 20th 2022 to be installed by August 19th 2023 without having to pay the increased water and sewer tap fee made by Trustee Kendall, seconded by Trustee Bruce. Motion passed with all present voting yes in a roll call vote.
- B. Discussion and Possible Action to Approve Staff to Apply for Energy Impact Assistance Grants for WWTP. Motion made by Trustee Bruce, seconded by Trustee Woods. Motion passed with all present voting yes in a roll call vote.
- C. Discussion and Possible Action to Approve Town Manager Vance Lipsey as 2023
 Budget Officer. Motion made by Trustee Woods, seconded by Trustee Kendall.
 Motion passed with all present voting yes in a roll call vote.
- D. Discussion and Possible Action to Approve Hinsdale County/Lake City
 Evacuation Plan. Motion made by Trustee Kendall, seconded by Trustee Heaton.
 Motion passed with all present voting yes in a roll call vote.

Adjournment – 8:20 pm.

INDEPENDENT AUDITOR'S REPORT

Board of Directors Town of Lake City, Colorado

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Town of Lake City, Colorado as of and for the year ended December 31, 2021 and the related notes to the financial statements, which collectively comprise the Town of Lake City, Colorado's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Lake City, Colorado as of December 31, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the *Audit of the Financial Statements* section of our report. We are required to be independent of the Town of Lake City, Colorado and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Lake City, Colorado's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

PO Box 865 Longmont, CO 80502 Green & Associates • LLC

PHONE (720) 839-6458 www.GreenCPAfirm.com

In performing an audit in accordance with generally accepted auditing standards, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures of the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town of Lake City, Colorado's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Lake City, Colorado's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, Schedule of the Town's Proportionate Share of the Net Pension Liability – PERA, Schedule of Pension Contributions – PERA, Schedule of the Town's Proportionate Share of the Net Pension Liability – OPEB, Schedule of Pension Contributions – OPEB, and the General Fund Budgetary Information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Lake City, Colorado's basic financial statements. The budgetary comparison schedules for the Conservation Trust Fund, and the Enterprise Fund, and the Local Highway Finance Report, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Budgetary Comparison Schedules for the Conservation Trust Fund, and the Enterprise Fund, and the Local Highway Finance Report are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Longmont, Colorado July 21, 2022

Management's Discussion and Analysis

As management of the Town of Lake City (the "Town"), we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended December 31, 2021. We encourage readers to consider the information presented here in conjunction with the Town's financial statements.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of the Town exceeded its liabilities and deferred inflows
 of resources at the close of 2021 by \$7,838,007 (net position). Of this amount, \$2,388,389
 (unrestricted net position) may be used to meet the Town's ongoing obligations to citizens
 and creditors.
- The Town's total net position increased by \$429,701.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$1.349.418

OVERVIEW OF THE FINANCIAL STATEMENTS

This management discussion and analysis ("MD&A") is intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required and other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the Town's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference between these reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The statement of activities presents information showing how the Town's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flow in future fiscal period (e.g., uncollected taxes and earned but unused vacation and sick leave).

Both of the government-wide financial statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the Town include general government, public safety, public works, community development, culture, parks, recreation, cemetery, and library. The business-type activities of the Town include sewer and water operations.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. During the year the Town segregates transactions related to certain Town functions or activities in separate

funds in order to aid financial management and to demonstrate legal compliance. All of the funds of the Town can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. All governmental funds are accounted for using a flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet and only revenues that are available within 60 days are recorded in the Statement of Revenues, Expenditures and Changes in Fund Balance.

The governmental funds statements provide a detailed short-term view of governmental fund operations and the basic services it provides. These statements help you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Town's programs. The differences between governmental activities reported in the statement of net position and the statement of activities and governmental funds are described in the accompanying reconciliations.

Proprietary funds. The Town maintains one type of proprietary fund, enterprise fund. The Town uses the enterprise fund to account for its water and sewer operations.

The proprietary fund is prepared using the economic resources measurement focus and the accrual basis of accounting. All assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operating of the Town are included in the statement of net position.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required and other supplementary information concerning the Town's combining financial statements for non-major funds, the budget comparison statements for non-major and enterprise funds.

This foregoing information is a summary of the financial information contained in the Town's financial statements. For more about the information contained in this condensed, comparative financial information, we recommend a close review of the accompanying audited financial statements beginning on page 5.

Discussion of Financial Position and Operating Activities Net position at the end of December 2021 was \$2,618,151 for the governmental activities, \$5,219,856 for the business-type activities and \$7,838,007 for the primary government. This increase is from revenues that exceeded expenses by \$429,701 for the primary government. The primary driver of the change was increased taxes and grant revenue.

The restricted portion of net position represents resources that are subject to external restrictions on how they may be used. The unrestricted net position may be used to meet the Town's ongoing obligations to citizens and creditors.

The Town restricted three percent (3%) of its general revenues for emergencies in accordance with TABOR requirements. The Town had a TABOR reserve of \$33,014 at December 31, 2021. The Town's total assets are comprised primarily cash and equivalents, receivables for utility services and tax revenues, and long-term capital assets. The Town's total liabilities are comprised primarily of accounts payable relating to ongoing operations, long-term debt and pension related liabilities.

In 2021, program expenses exceeded program revenues by \$462,313 for the primary government. This was offset by net general revenues of \$892,014, which resulted in an overall increase in net position. See page 6 of the accompanying Financial Statements for details of these revenues and expenses.

Fund Discussion

Governmental Funds

The General Fund balance increased from \$916,582 in 2020 to \$1,393,396 in 2021. The primary reason for these changes were increased taxes and grants. The fund balance includes \$33,014 of restricted amounts. The assets and liabilities are comprised primarily of cash and receivables to be collected in 2021. As of December 31, 2021, the Town's combined fund balance for all governmental funds was \$1,422,985.

General Fund Budgetary Discussion

Actual revenues for 2021 were \$300,407 less than the final budget. Actual expenditures for 2021 were \$1,016,568 less than the final budget. The general fund budget was amended in 2021.

Proprietary Fund

The Water and Sewer Fund balance decreased by \$96,276. Deferred inflows of resources, and deferred outflows of resources fluctuated due to changes in pension related amounts. The assets and liabilities are comprised primarily of cash; utility accounts receivable and capital assets. Actual revenues for 2021 were \$35,517 more than the final budgeted amount. Actual expenditures for 2021 were \$161,896 more than the final budgeted amount.

Capital Assets and Long-term Obligations

Capital Assets. At the end of 2021 the Town had \$6,343,926 invested in a broad range of capital assets including major infrastructure such as buildings, roads, bridges, storm water drainage, parks and recreation facilities and water lines and distribution systems, net of depreciation. More detailed information on the Town's capital assets is presented in detail in the notes to the financial statements.

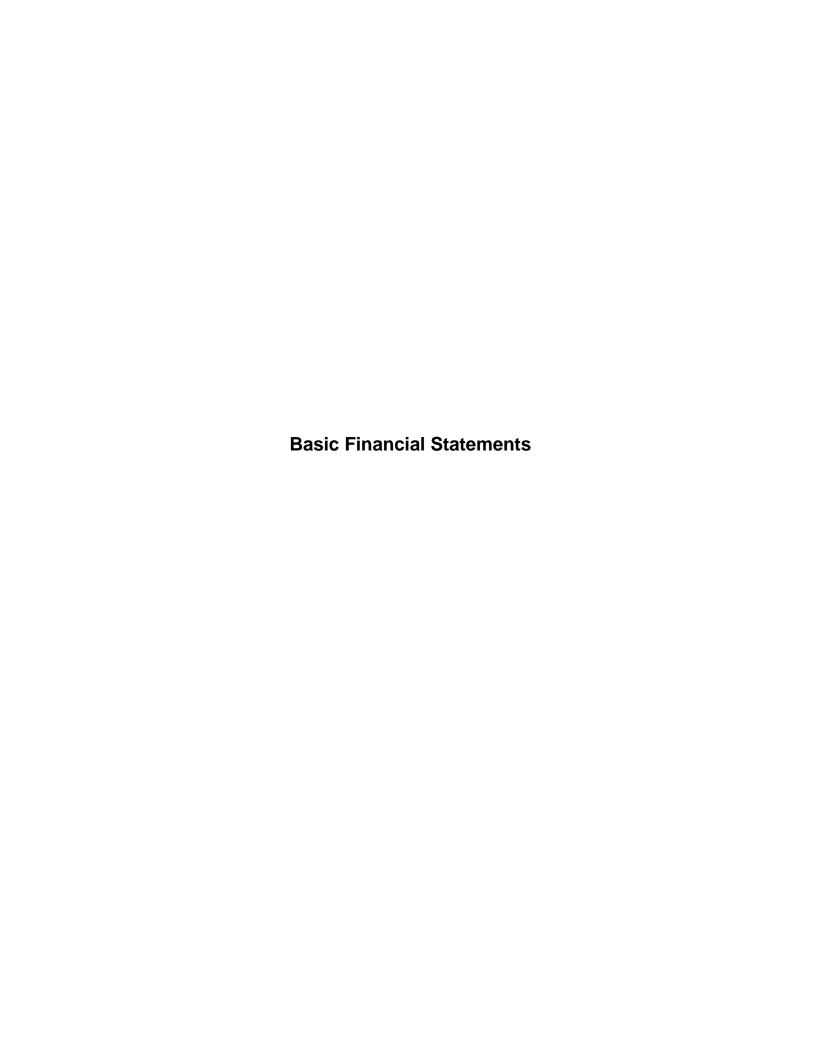

Long-term Debt. The only changes to long-term debt were the scheduled payment of principal and draws on the previously issued loans.

ECONOMIC FACTORS AND BUDGET OVERVIEW

Sales tax collections for the Town of Lake City increased by 32% from 2020 to 2021. This increase is attributed to newly taxable internet sales and increased visitation due to the COVID pandemic. This trend is expected to continue in 2022. The mill levy for the year is unchanged and property taxes are expected to remain flat.

Contacting the Town

This financial report is designed to provide a general overview of the Town's finances for all those with an interest in the Town's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Town of Lake City, P. O. Box 544, Lake City, CO 81235.

| Compensated absences | (7,080) | |
| Net Cash Provided by Operating Activities | \$ 51,646 | |

Note 1 Summary of Significant Accounting Policies

Financial Reporting Entity

The Town of Lake City, Colorado (the "Town") was incorporated on August 16, 1875 as a statutory town. The Town is governed by a Board of Trustees elected by eligible voters of the Town. The Town provides the following services: Public Safety, Highways and Streets, Culture and Recreation, Planning and Zoning and General Administration Services. In addition, the Town provides Water and Sewer services for its residents through the proprietary fund.

The Governmental Accounting Standards Board (GASB) is the authoritative body and the Town follows all GASB accounting pronouncements, which provides guidance for determining which governmental activities, organization and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens, and fiscal dependency. The Town is not financially accountable for any other organization, nor is the Town a component unit of any other primary governmental entity.

Basis of Presentation

The Town's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of information.

Government-wide Financial Statements

The statement of net position and the statement of activities display information about the Town as a whole. These statements include the financial activities of the primary government.

The statement of net position presents the financial position of the governmental and proprietary fund activities at the end of the year. The statement of activities presents a comparison between program expenses and the program revenue for each program or function of the primary government activities. Program expenses are those that are specifically associated with a service, program or department; and therefore, clearly identifiable to a particular function. Program revenue includes charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenue are presented as general revenue of the Town, with certain limited exceptions. The comparison of program expenses with program revenue identifies the extent to which each function is self-financing or draws from the general revenue of the Town.

Fund Accounting

During the year the Town segregates transactions related to certain Town functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the Town at this more detailed level. The focus of governmental fund financial statements is on major funds.

Note 1 Summary of Significant Accounting Policies (Continued)

The accounts of the Town are organized on the basis of funds each of which is considered a separate accounting entity. In the fund financial statements, the Town reports the following major governmental funds:

General Fund – The General Fund is the general operating fund of the Town. It is used to account for all financial activities except those required to be accounted for in another fund.

The Town's remaining governmental fund is; conservation trust fund which is presented as non-major fund.

Enterprise Funds are used to account for operations that are financed in a manner similar to private business enterprises where the intent of the governing body is that the costs of providing goods or services to the general public be recovered primarily through user charges. The Town reports the following major enterprise fund:

Water and Sewer Fund – The Water and Sewer Fund accounts for the costs related to providing water and sewer services to the Town.

Measurement Focus and Basis of Accounting

Government-wide Financial Statement

The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. All assets and liabilities associated with the operation of the Town are included in the statement of net position.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet and only revenues that are available within 60 days are recorded in the Statement of Revenues, Expenditures and Changes in Fund Balance.

The Statement of Revenues, Expenditures, and Changes in Fund Balance reports on the sources (revenue and other financing sources) and uses (expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Proprietary funds, which include enterprise funds, are accounted for using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when they are earned and expenses are recorded when incurred. Depreciation is computed and recorded as an operating expense. Expenditures for capital outlay are recognized as increases in capital assets.

Note 1 Summary of Significant Accounting Policies (Continued)

Revenue

Revenue resulting from exchange transactions, in which each party gives and receives essentially the same value, is recorded on the accrual basis, when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are both measurable and available to finance expenditures of the fiscal period, which is typically within sixty days of realization.

Non-exchange transactions, in which the Town receives value without directly giving value in return, include sales taxes, grants, entitlements and donations. Revenue from sales tax is recognized in the fiscal year for which the taxes are collected by the vendor. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized. Program revenues consist of revenues that are associated with the governmental services such as licenses, permits and water sales.

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the fund liability is incurred, if measurable. Allocations of costs, such as depreciation and amortization, are not recognized in governmental funds.

Property Taxes

Property taxes attach an enforceable lien on property as of January 1st. Taxes are levied on January 1st and are payable either in one installment on or before April 30th, or in two installments due on or before February 28th and June 15th of each year. The collections and assessments are done by HInsdale County and are remitted to the Town monthly. Property taxes, which are due to be paid in the next period and representing an enforceable lien at January 1st of the next year, have been recorded as a receivable and a deferred inflow of resources in the year in which they are levied. Property tax revenues are recognized when they are collected by Hinsdale County.

Assets and Liabilities

Cash and cash equivalents- The Town follows the practice of pooling cash and investments of all funds to maximize investment earnings. Except when required by trust or other agreements, cash is deposited to and disbursed from a single bank account. Cash in excess of immediate operating requirements is pooled for deposit and investment flexibility. Investment earnings are allocated periodically to the participating funds based on each fund's average equity balance in total cash. The Town's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with maturities of 90 days or less at the date of their acquisition for the financial statements including the statement of cash flows.

Investments – investments are recorded at fair value, which approximates cost.

Receivables – all receivables are reported at their book value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. Substantially all revenues of the enterprise funds originate from charges to the users, and the District has the ability to place liens on the property.

Note 1 Summary of Significant Accounting Policies (Continued)

Management has reviewed the collectability of accounts receivable and has determined the collectability of accounts. Accordingly, the Town has determined that no allowance for doubtful accounts is required as the town has the right to put a lien on the property.

Capital assets - are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capitalized assets are defined by the Town as assets that have a useful life of more than one year and exceed \$5,000:

| | Governmental Activities | Business-type Activities |
|-----------------------------------|-------------------------|---------------------------------|
| | Estimated Lives | Estimated Lives |
| Land and water rights | N/A | N/A |
| Buildings | 20-50 years | N/A |
| Improvements other than buildings | 10-50 years | 10-50 years |
| Equipment | 5-10 years | 5-10 years |
| Utility systems | N/A | 25-50 years |
| Infrastructure | 35 years | N/A |

Capital assets are recorded at cost except for those assets which have been contributed, which are stated at estimated fair market value at the date of contribution or at developer's cost. Depreciation is computed using the straight-line method over the asset's estimated economic useful life. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

Public domain assets consisting of roads, bridges, curbs and gutters, streets and sidewalks, drainage systems and lighting systems are examples of infrastructure assets. Infrastructure assets are distinguished from other capitalized assets since their useful life often extends beyond most other capital assets and are stationary in nature. General infrastructure assets are those associated with or arising from governmental activities.

Impairment of Capital Assets

GASB Statement No. 42, Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries, ("GASB No 42"), establishes accounting and financial reporting standards for impairment of capital assets. A capital asset is considered impaired when its service utility has declined significantly and unexpectedly. The Town is required to evaluate prominent events or changes in circumstances affecting capital assets to determine whether impairment of a capital asset has occurred. Management of the Town has determined that there are no indications of impairment of capital assets as of December 31, 2021.

Long-Term Obligations

In the government-wide financial statements and enterprise fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable government activities, business-type activities or enterprise fund type statement of net position. Bond issuance costs are expensed during the current period. Bond premiums and discounts are amortized over the term of the related debt.

Note 1 Summary of Significant Accounting Policies (Continued)

In the fund financial statements, governmental fund types recognize bond premiums and discounts as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances and discounts are reported as other financing sources. The issuance costs related to the debt is reported as an expenditure in the current period.

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the governmental funds.

Compensated absences – The Town reports compensated absences in accordance with the provisions of GASB Statement No. 16, *Accounting for Compensated Absences*. Personal leave benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services rendered and it is probable that the Town will compensate the employees for the benefits earned. Upon termination of employment from the Town, an employee will be compensated for all accrued vacation, holiday and compensatory time at their current rate of pay, there is no payment for sick leave upon termination. Amounts of vested or accumulated vacation and holiday pay that are not expected to be liquidated with expendable available financial resources are reported on the government-wide financial statements.

Deferred outflows of resources- In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. A deferred outflow of resources is a consumption of net position by the Town that is applicable to a future reporting period. The Town has two items that qualify as a deferred outflow of resources. A deferred outflow of resources related to GASB Statement No. 68 and 75 has been recorded as of December 31, 2021 which consists of four components: 1) contributions subsequent to the measurement date 2) change in proportionate share; 3) change in experience; and 4) change in assumptions.

Deferred inflow of resources- In addition to liabilities, the statement of net position will sometimes report separate sections for deferred inflows of resources. A deferred inflow of resources is an acquisition of net position by the Town that is applicable to a future reporting period. The Town has three items that qualify for reporting as deferred inflows of resources. Property tax revenue is considered a deferred inflow of resources in the year the taxes are levied and measurable, and are recognized as an inflow of resources in the period they are collected. A deferred inflow related to GASB Statement No. 68 and 75 has been recorded as of December 31, 2021 which consists of four components: 1) change in experience, 2) change in proportionate share, and 3) change in assumptions 4) change in investment earnings.

Net Position

Equity is classified as net position and displayed in three components:

Net investment in capital assets – consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Note 1 Summary of Significant Accounting Policies (Continued)

Restricted net position – consists of net position with constraints placed on the use either by (1) external groups, such as creditors, grantors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation. The Town utilizes restricted net position before utilizing unrestricted net position when an expense is incurred for both purposes

Unrestricted net position – all other net position that do not meet the definition of "restricted" or "net investment in capital assets." The net position is available for future operations or distributions.

Fund Balance

Nonspendable- consists of amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The nonspendable fund balance was \$10,964 as of December 31, 2021.

Restricted - General Fund - Article X, Section 20 of the Constitution of the State of Colorado (TABOR) requires the Town to establish Emergency reserves (see Note 4). A reservation of \$33,014 of the General Fund balance has been made in compliance with this requirement. Additionally, the Town has \$28,080 restricted for parks and other items related to the conservation trust fund to be used for parks and open space.

Committed- Committed fund balance includes those items which can be used for specific purposes pursuant to constraints imposed by formal action of the Board of Trustees. Those committed amounts cannot be used for any other purpose unless the Board of Trustees formally removes or changes the specified uses. The Town had a committed fund balance of \$0 as of December 31, 2021.

Assigned – Includes all amounts that are constrained by the Town's intent to be used for a specific purpose but are neither committed nor restricted. The assignment of these balances must occur through a formal action of the Board of Trustee's. As of December 31, 2021, the assigned fund balance was \$0.

Unassigned- consists of the residual classification for each fund. This represents amounts that have not been assigned to other funds and that has not been restricted, committed, or assigned for specific purposes.

The Town has not adopted fund balance policies; therefore, the Town follows the guidance in accordance with GASB 54 and apply resources in the following order: restricted, committed, assigned and unassigned. The Road and Bridge fund had a deficit fund balance at year end.

Interfund Transactions

Interfund receivables and payables arise from interfund transactions and are recorded by all funds affected in the period in which transactions are executed. At year-end outstanding balances are reported as due to / due from other funds. All interfund transfers are reported as transfers. Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as internal balances. The effect of interfund activity has been eliminated from the government-wide financial statements except for charges between the enterprise funds and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned. The interfund lending is for the purposes of funding operations. The Town transferred \$40,000 from the enterprise fund to the General Fund for the purposes of operations for the year ending December 31, 2021.

Note 1 Summary of Significant Accounting Policies (Continued)

Budgets and Budgetary Accounting

Budgets are adopted on a cash basis except for accrual of current vendor invoices and utility billings. Annual appropriated budgets are adopted for the fund. All annual appropriations lapse at fiscal year-end.

The Town adheres to the following procedures in establishing the budgetary data reflected in the financial statements:

- Budgets are required by state law for all funds. The budget includes proposed expenditures and the means of financing them. All budgets lapse at year-end.
- Prior to December 31, the budget is adopted by formal resolution.
- Budgets are required to be filed with the State of Colorado within thirty days after the beginning of the fiscal year.
- Expenditures may not legally exceed appropriations at the fund level.
- The Town Board must approve revisions that alter the total expenditures of any fund.
- Budgeted amounts reported in the accompanying financial statements are as originally adopted by the Town Board or revised by the Town Board.

The enterprise fund had expenditures in excess of budgeted amounts which may be a violation of state budget law.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 2 Cash and Investments

Cash Deposits

The Town maintains a cash pool that is available for use by all funds. Each fund's portion of the pool is displayed on the combined balance sheet as "Cash and Cash equivalents". As of December 31, 2021, the Town's cash deposits had a carrying balance of \$14,292 with corresponding bank balance of \$32,550 all of which is federally insured.

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulations. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is specified under the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least equal to 102% of the uninsured deposits. The Town had \$0 collateralized under PDPA.

The Colorado Divisions of Banking and Financial Services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

A summary of cash and cash equivalents at December 31, 2021 is as follows:

Note 2 Cash and Investments (Continued)

| Cash deposits | \$ 14,292 |
|--|-----------------|
| Money market accounts | 2,536,579 |
| Colotrust | 207,681 |
| Cash on hand | 2,412 |
| Total cash and cash equivalents | \$ 2,760,964 |
| Unrestricted cash and cash equivalents | \$ 2,593,893 |
| Restricted cash and cash equivalents | 167,071 |
| Total cash and cash equivalents | \$ 2,760,964 |

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the Town's deposits may not be returned to it. The Town does not have a deposit policy for custodial credit risk. As of December 31, 2021, none of the Town's bank deposits were exposed to custodial credit risk.

Investments

Colorado statutes specify in which investment instruments the units of local government may invest:

- Obligations of the United States and certain United States government agency securities.
- Certain international agency securities.
- General obligation and revenue bonds of United States local government entities.
- Bankers' acceptances of certain banks.
- Commercial paper.
- Local government investment pools.
- Written repurchase agreements collateralized by certain authorized securities.
- Certain money market funds.
- Guaranteed investment contracts.

At December 31, 2021, the Town had \$207,681 invested in the Colorado Local Government Liquid Asset Trust (COLOTRUST) (the Trust), an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all State statutes governing the Trust. The Trust operates similarly to a money market fund and each share is equal in value to \$1.00. The Trust offers shares in two portfolios, COLOTRUST PRIME and COLOTRUST PLUS+. Both portfolios may invest in U.S. Treasury securities and repurchase agreements collateralized by U.S. Treasury securities. COLOTRUST PLUS+ may also invest in certain obligations of U.S. government agencies, highest rated commercial paper and any security allowed under CRS 24-75-601. A designated custodial bank serves as custodian for the Trust's portfolios pursuant to a custodian agreement. The custodian acts as safekeeping agent for the Trust's investment portfolios and provides services as the depository in connection with direct investments and withdrawals. The custodian's internal records segregate investments owned by the Trust. COLOTRUST is rated AAAm by Standard & Poor's and is measured at net asset value (NAV). There are no unfunded commitments, the redemption frequency is daily and there is no redemption notice period.

Note 2 Cash and Investments (Continued)

The Town's investment policy is to hold investments until maturity and mirrors State statute.

At December 31, 2021 the Town had \$30,524 invested in a certificate of deposit with Community Banks of Colorado. The Certificate of Deposit has an initial maturity of twelve months and renews annually. The interest rate on the certificate at December 31, 2021 was .15%. The certificate of deposit was not rated. The certificate is presented using amortized cost.

The money market account was not rated as of December 31, 2021

The Town has restricted cash in the amount of \$140,191 relating to the operating and maintenance reserve as required by the loans with the Colorado Water and Power Authority and \$26,880 as required by the conservation trust program through the State of Colorado.

Note 3 Receivables

| Receivables | Governmental Activities | ness - type <i>i</i> ities | Total | |
|---------------------------------------|----------------------------|-------------------------------|-------|---------|
| Trade accounts receivable | - | 111,989 | | 111,989 |
| Less: Allowance for doubtful accounts | | - | | |
| Total | \$ - | \$ 111,989 | \$ | 111,989 |

Note 3 Capital Assets

A summary of changes to capital assets for 2021 is as follows:

| | Balance at | | | Balance at |
|--------------------------------------|--------------|-----------|-----------|--------------|
| Governmental Activities | 12/31/2020 | Additions | Disposals | 12/31/2021 |
| Nondepreciable Capital Assets | | | | |
| Land | 284,078 | - | - | 284,078 |
| Total Non-Depreciable Capital Assets | 284,078 | - | - | 284,078 |
| Depreciable Capital Assets | | | | |

Note 5 Long-Term Debt

The following is an analysis of changes in long-term debt for the year ended December 31, 2021 for the business-type activities:

| | | | | | Amounts |
|--------------------------|--------------|------------|------------|--------------|------------|
| | Balance | | | Balance | Due Within |
| | 12/31/2020 | Additions | Reductions | 12/31/2021 | One Year |
| 2015 CWRPDA Note payable | \$ 408,333 | \$ - | \$ 16,667 | \$ 391,666 | \$ 16,667 |
| 2019 CWRPDA Note payable | 884,729 | <u>-</u> _ | 180,802 | 703,927 | 21,902 |
| Total Long-term Debt | \$ 1,293,062 | \$ - | \$ 197,469 | \$ 1,095,593 | \$ 38,569 |

2015 CWRPDA Note Payable

In July 2015, the Town entered into a loan agreement with the Colorado Water Resource and Power Development Authority (CWRPDA) in the amount of \$500,000 to be used towards water system improvements. The loan is federally subsidized and bears no interest. Principal payments of \$8,333 are due semiannually beginning in November 2015 for a period of 30 years.

The note contains restrictive covenants related to rates, a pledge of water and sewer revenues and the requirement establishing a three-month operations and maintenance reserve. The Town has established a reserve of \$99,854 and has restricted net position in the Water and Sewer Fund, accordingly.

2020 CWRPDA Note Payable

In March 2020, the Town entered into a loan agreement with the Colorado Water Resource and Power Development Authority (CWRPDA) in the amount of \$900,000 to be used towards sewer collection system improvements. The loan is bears interest at 1%. Normal principal and interest payments of \$17,610 are due semiannually beginning in November 2021 through November

Note 5 Long-Term Debt (Continued)

2049. The Town had \$304,306 available to be drawn as of December 31, 2021. Per the terms of the note, the full amount of the loan was recorded as a payable upon signing, therefore the Town has recorded the total amount of the note as a payable and the undrawn proceeds as a receivable. Effective July 2021, the Town determined that \$157,106 of the loan was no longer required and was returned to CWRPDA. CWRPDA issued an updated loan amortization schedule for the revised amount of \$742,894. The new amortization still requires semi-annual loan payments through November 2049 with the first loan payment being \$14,436 in November 2021 and the remaining payments being \$14,443.

Similar to the 2015 agreement, the note contains restrictive covenants related to rates, a pledge of water and sewer revenues and the requirement establishing a three-month operations and maintenance reserve. The Town was in compliance with all loan covenants at December 31, 2021.

The following principal and interest payments are required:

| Year ending December 31, | Principal | | Interest | Total |
|--------------------------|-----------------|----|----------|-----------------|
| 2022 | \$ 38,569 | \$ | 6,984 | \$ 45,553 |
| 2023 | 38,788 | | 6,765 | 45,553 |
| 2024 | 39,010 | | 6,543 | 45,553 |
| 2025 | 39,234 | | 6,319 | 45,553 |
| 2026 | 39,460 | | 6,093 | 45,553 |
| 2027-2031 | 200,775 | | 26,990 | 227,765 |
| 2032-2036 | 206,780 | | 20,985 | 227,765 |
| 2037-2041 | 213,094 | | 14,671 | 227,765 |
| 2042-2046 | 194,720 | | 8,037 | 202,757 |
| 2047-2019 | 85,163 | | 3,892 | 89,055 |
| Total | \$ 1,095,593 | \$ | 107,279 | \$ 1,202,872 |

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (OPEB)

Summary of Significant Accounting Policies

The Town of Lake City participates in the Local Government Division Trust Fund (LGDTF), a cost-sharing multiple-employer defined benefit pension plan administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position (FNP) and additions to/deductions from the FNP of the LGDTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

The Colorado General Assembly passed significant pension reform through Senate Bill (SB) 18-200: Concerning Modifications To the Public Employees' Retirement Association Hybrid Defined Benefit Plan Necessary to Eliminate with a High Probability the Unfunded Liability of the Plan Within the Next Thirty Years. The bill was signed into law by Governor Hickenlooper on June 4, 2018. SB 18-200 made changes to certain benefit provisions.

General Information about the Pension Plan

Plan description. Eligible employees of the Town of Lake City are provided with pensions through the LGDTF—a cost-sharing multiple-employer defined benefit pension plan administered by PERA. Plan benefits are specified in Title 24, Article 51 of the Colorado Revised Statutes (C.R.S.), administrative rules set forth at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report (Annual Report) that can be obtained at www.copera.org/investments/pera-financial-reports.

Benefits provided as of December 31, 2021. PERA provides retirement, disability, and survivor benefits. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure(s) under which the member retires, the benefit option selected at retirement, and age at retirement. Retirement eligibility is specified in tables set forth at C.R.S. § 24-51-602, 604, 1713, and 1714.

The lifetime retirement benefit for all eligible retiring employees under the PERA benefit structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit.
- The value of the retiring employee's member contribution account plus a 100 percent match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

Disability benefits are available for eligible employees once they reach five years of earned service credit and are determined to meet the definition of disability. The disability benefit amount is based on the lifetime retirement benefit formula(s) shown above considering a minimum 20 years of service credit, if deemed disabled.

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure(s) under which service credit was obtained, and the qualified survivor(s) who will receive the benefits.

Contributions provisions as of December 31, 2021 Eligible employees and the Town of Lake City are required to contribute to the LGDTF at a rate set by Colorado statute. The contribution requirements are established under C.R.S. § 24-51-401, et seq. and § 24-51-413. Employee contribution rates for the period are summarized in the table below:

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

Eligible employees are required to contribute 8.5% of their PERA includable salary during the period of January 1, 2021 through December 31, 2021,

The employer contribution requirements for all employees other than State Troopers are summarized in the table below:

| | January 1, 2021 | |
|---|-----------------|-------------------------|
| | Through | July 1, 2021 Through |
| | June 30, 2021 | December 31, 2021 |
| | Julie 30, 2021 | December 31, 2021 |
| | | |
| Employer contribution rate | 10.50% | 10.50% |
| Amount of employer contribution apportioned to the | (1.02)% | (1.02)% |
| Health Care Trust Fund as specified in | | |
| C.R.S. § 24-51-208(1)(f) | | |
| Associate as a series and to the LODTE | 0.400/ | 0.400/ |
| Amount apportioned to the LGDTF | 9.48% | 9.48% |
| Amortization Equalization Disbursement (AED) as | 2.20% | 2.20% |
| specified in | | |
| C.R.S. § 24-51-411 | | |
| Supplemental Amortization Equalization | 1.50% | 1.50% |
| Disbursement (SAED) as specified in C.R.S. § 24-51- | I . | |
| 411 | | |
| | | |
| Defined Contribution Supplement as specified in | 0.02% | 0.02% |
| C.R.S. § 24-51-415 | | |
| Total employer contribution rate to the LGDTF | 13.20% | 13.20% |
| | | |

^{**}Contribution Rates for the LGDTF are expressed as a percentage of salary as defined in C.R.S. § 24-51-101(42).

Employer contributions are recognized by the LGDTF in the period in which the compensation becomes payable to the member and the Town of Lake City is statutorily committed to pay the contributions to the LGDTF. Employer contributions recognized by the LGDTF from Town of Lake City were \$144,193 for the year December 31, 2021.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2021 the Town of Lake City reported a liability of \$229,356 for its proportionate share of the net pension liability. The net pension liability for the LGDTF was measured as of December 31, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2019. Standard update procedures were used to roll-forward the total pension liability to December 31, 2020.

The Town of Lake City proportion of the net pension liability was based on Town of Lake City contributions to the LGDTF for the calendar year 2020 relative to the total contributions of participating employers to the LGDTF.

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

At December 31, 2020, the Town of Lake City proportion was .0440115621 percent, which was an increase of .0001980607 from its proportion measured as of December 31, 2019.

For the year ended December 31, 2021, the Town of Lake City recognized pension expense (income) of \$(25,140). At December 31, 2021, the Town of Lake City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | Deferred Outflows of | Deferred Inflows of |
|--|----------------------|---------------------|
| | <u>Resources</u> | <u>Resources</u> |
| Difference between expected and | \$11,089 | \$0 |
| actual experience | | |
| Changes of assumptions or other inputs | 55,426 | 0 |
| Net difference between projected and | 0 | 248,036 |
| actual earnings on pension plan | | |
| investments | | |
| Changes in proportion and differences | • | 2,875 |
| between contributions recognized and | | |
| proportionate share of contributions | | |
| Contributions subsequent to the | 42,681 | N/A |
| measurement date | | |
| | | |
| Total | \$110,297 | \$250,911 |

\$42,681 reported as deferred outflows of resources related to pensions, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended December 31, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Year ended December 31, | |
|-------------------------|------------|
| 2022 | \$(30,214) |
| 2023 | (29,857) |
| 2024 | (84,080) |
| 2025 | (39,144) |
| 2026 | 0 |
| Thereafter | \$0 |

Actuarial assumptions. The total pension liability in the December 31, 2019 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

| Actuarial cost method | Entry age |
|---|---------------------|
| Price inflation | 2.40% |
| Real wage growth | 1.10% |
| Wage inflation | 3.50% |
| Salary increases, including wage inflation | 3.50%-10.45% |
| Long-term investment rate of return, net of pension plan investment expenses, including price inflation | 7.25% |
| Discount rate Post-retirement benefit increases: | 7.25% |
| PERA benefit structure hired prior to 1/1/07 and DPS benefit structure (compounded annually) | 1.25% |
| PERA benefit structure hired after 12/31/06 ¹ | Financed by the AIR |

¹ Post-retirement benefit increases are provided by the AIR, accounted separately within each Division Trust Fund, and subject to moneys being available; therefore, liabilities related to increases for members of these benefit tiers can never exceed available assets.

Healthy mortality assumptions for active members were based on the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

Post-retirement non-disabled mortality assumptions were based on the RP-2014 Healthy Annuitant Mortality Table, adjusted as follows:

- Males: Mortality improvement projected to 2018 using the MP-2015 projection scale, a 73 percent factor applied to rates for ages less than 80, a 108 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- Females: Mortality improvement projected to 2020 using the MP-2015 projection scale, a 78 percent factor applied to rates for ages less than 80, a 109 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

The mortality assumption for disabled retirees was based on 90 percent of the RP-2014 Disabled Retiree Mortality Table.

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

Based on the 2020 experience analysis, dated October 28, 2020, for the period January 1, 2016, through December 31, 2019, revised economic and demographic assumptions were adopted by PERA's Board on November 20, 2020, and were effective as of December 31, 2020. The assumptions shown below were reflected in the roll forward calculation of the total pension liability from December 31, 2019, to December 31, 2020.

| Actuarial cost method | Entry age |
|---|---------------------|
| Price inflation | 2.30% |
| Real wage growth | 0.70% |
| Wage inflation | 3.00% |
| Salary increases, including wage inflation: | |
| Members other than State Troopers | 3.20%-11.30% |
| State Troopers ¹ | 3.20%-12.40% |
| Long-term investment rate of return, net of pension plan investment expenses, including price inflation | 7.25% |
| Discount rate | 7.25% |
| Post-retirement benefit increases: | |
| PERA benefit structure hired prior to 1/1/07 and DPS benefit structure (compounded annually) | 1.25% |
| PERA benefit structure hired after 12/31/06 ² | Financed by the AIR |

¹ C.R.S. § 24-51-101 (46), as amended, expanded the definition of "State Troopers" to include certain employees within the LGDTF, effective January 1, 2020. See Note 4 of the Notes to the Financial Statements in PERA's 2020 Annual Report for more information.

Salary scale assumptions were revised to align with revised economic assumptions and to more closely reflect actual experience.

Rates of termination/withdrawal, retirement, and disability were revised to more closely reflect actual experience. Pre-retirement mortality assumptions for Members other than State Troopers were based upon the PubG-2010 Employee Table with generational projection using scale MP-2019.

Pre-retirement mortality assumptions for State Troopers were based upon the PubS-2010 Employee Table with generational projection using scale MP-2019.

- Males: 94 percent of the rates prior to age 80 and 90 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.
- **Females**: 87 percent of the rates prior to age 80 and 107 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.

² Post-retirement benefit increases are provided by the AIR, accounted separately within each Division Trust Fund, and subject to moneys being available; therefore, liabilities related to increases for members of these benefit tiers can never exceed available assets.

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)
Post-retirement non-disabled beneficiary mortality assumptions were based upon the Pub-2010
Contingent Survivor Table, adjusted as follows:

- Males: 97 percent of the rates for all ages, with generational projection using scale MP-2019.
- **Females:** 105 percent of the rates for all ages, with generational projection using scale MP-2019.

Disabled Retiree Table using 99 percent of the rates for all ages with generational projection using scale MP-2019.

Disabled mortality assumptions for State Troopers were based upon the unadjusted PubS-2010 Disabled Retiree Table with generational projection using scale MP-2019. The mortality tables described above are generational mortality tables on a benefit-weighted basis.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four to five years for PERA. Recently this assumption has been reviewed more frequently. The most recent analyses were outlined in the Experience Study report dated October 28, 2020. As a result of the November 20, 2020, PERA Board meeting, the following economic assumptions were changed, effective December 31, 2020:

- Price inflation assumption decreased from 2.40 percent per year to 2.30 percent per year.
- Real rate of investment return assumption increased from 4.85 percent per year, net of investment expenses to 4.95 percent per year, net of investment expenses.
- Wage inflation assumption decreased from 3.50 percent per year to 3.00 percent per year.

Several factors are considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and then adding expected inflation.

The PERA Board first adopted the 7.25 percent long-term expected rate of return as of November 18, 2016. Following an asset/liability study, the Board reaffirmed the assumed rate of return at the Board's November 15, 2019, meeting, to be effective January 1, 2020. As of the most recent reaffirmation of the long-term rate of return, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the table as follows:

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

| | Target | 30 Year Expected Geometric |
|---------------------------|------------|----------------------------|
| Asset Class | Allocation | Real Rate of Return |
| Global Equity | 54.00% | 5.60% |
| Fixed Income | 23.00% | 1.30% |
| Private Equity | 8.50% | 7.10% |
| Real Estate | 8.50% | 4.40% |
| Alternatives ¹ | 6.00% | 4.70% |
| Total | 100.00% | |

¹ The Opportunity Fund's name changed to Alternatives, effective January 1, 2020. In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected nominal rate of return assumption of 7.25 percent.

Discount rate. The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Total covered payroll for the initial projection year consists of the covered payroll of the
 active membership present on the valuation date and the covered payroll of future plan
 members assumed to be hired during the year. In subsequent projection years, total
 covered payroll was assumed to increase annually at a rate of 3.00 percent.
- Employee contributions were assumed to be made at the member contribution rates in effect for each year, including the scheduled increase in SB 18-200. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law for each year, including the scheduled increase in SB 18-200. Employer contributions also include current and estimated future AED and SAED, until the actuarial value funding ratio reaches 103 percent, at which point the AED and SAED will each drop 0.50 percent every year until they are zero. Additionally, estimated employer contributions reflect reductions for the funding of the AIR and retiree health care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.
- Employer contributions and the amount of total service costs for future plan members were based upon a process to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- The AIR balance was excluded from the initial FNP, as, per statute, AIR amounts cannot be used to pay benefits until transferred to either the retirement benefits reserve or the survivor benefits reserve, as appropriate. AIR transfers to the FNP position and the subsequent AIR benefit payments were estimated and included in the projections.

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

Benefit payments and contributions were assumed to be made at the middle of the year.

Based on the above assumptions and methods, LGDTF's FNP was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25 percent. There was no change in the discount rate from the prior measurement date.

Sensitivity of the Town of Lake City proportionate share of the net pension liability to changes in the discount rate. The following presents the proportionate share of the net pension liability calculated using the discount rate of 7.25 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

| | | | | | | | | 1% | Decre | ease | Current | | 1% | Increase |
|-------------|-----------|--------|-----------|-----|------|---------|----|----------|-------|------|-----------|------|---------|----------|
| | | | | | | | | (6.25%) | | | Discount | Rate | (8.25% | (a) |

Pension plan fiduciary net position. Detailed information about the LGDTF's fiduciary net position is available in PERA's Annual Report which can be obtained at www.copera.org/investments/pera-financial-reports.

Voluntary Investment Program

Plan Description - Employees of the Town that are also members of the LGDTF may voluntarily contribute to the Voluntary Investment Program, an Internal Revenue Code Section 401(k) defined contribution plan administered by PERA. Title 24, Article 51, Part 14 of the C.R.S., as amended, assigns the Town to establish the Plan provisions to the PERA Board of Trustees. PERA issues a publicly available Annual Report which includes additional information on the Voluntary Investment Program. That report can be obtained at www.copera.org/investments/pera-financial-reports.

Funding Policy - The Voluntary Investment Program is funded by voluntary member contributions up to the maximum limits set by the Internal Revenue Service, as established under Title 24, Article 51, Section 1402 of the C.R.S., as amended. In addition, the Town of Lake City has agreed to match employee contributions up to 0 percent of covered salary as determined by the Internal Revenue Service. Employees are immediately vested in their own contributions, employer contributions and investment earnings. For the year ended December 31, 2021 program members contributed \$0 and Town of Lake City recognized pension expense and a liability of \$0 and \$0, respectively, for the Voluntary Investment Program.

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued) Summary of Significant Accounting Policies

OPEB. The Town of Lake City participates in the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer defined benefit OPEB fund administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, OPEB expense, information about the fiduciary net position (FNP) and additions to/deductions from the FNP of the HCTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefits paid on behalf of health care participants are recognized when due and/or payable in accordance with the benefit terms. Investments are reported at fair value.

General Information about the OPEB Plan

Plan description. Eligible employees of the Town of Lake City are provided with OPEB through the HCTF—a cost-sharing multiple-employer defined benefit OPEB plan administered by PERA. The HCTF is established under Title 24, Article 51, Part 12 of the Colorado Revised Statutes (C.R.S.), as amended. Colorado

State law provisions may be amended from time to time by the Colorado General Assembly. Title 24, Article 51, Part 12 of the C.R.S., as amended, sets forth a framework that grants Town to the PERA Board to contract, self-insure, and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of the premium subsidies. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report (Annual Report) that can be obtained at www.copera.org/investments/pera-financial-reports.

Benefits provided. The HCTF provides a health care premium subsidy to eligible participating PERA benefit recipients and retirees who choose to enroll in one of the PERA health care plans, however, the subsidy is not available if only enrolled in the dental and/or vision plan(s). The health care premium subsidy is based upon the benefit structure under which the member retires and the member's years of service credit. For members who retire having service credit with employers in the Denver Public Schools (DPS) Division and one or more of the other four Divisions (State, School, Local Government and Judicial), the premium subsidy is allocated between the HCTF and the Denver Public Schools Health Care Trust Fund (DPS HCTF). The basis for the amount of the premium subsidy funded by each trust fund is the percentage of the member contribution account balance from each division as it relates to the total member contribution account balance from which the retirement benefit is paid.

C.R.S. § 24-51-1202 et seq. specifies the eligibility for enrollment in the health care plans offered by PERA and the amount of the premium subsidy. The law governing a benefit recipient's eligibility for the subsidy and the amount of the subsidy differs slightly depending under which benefit structure the benefits are calculated. All benefit recipients under the PERA benefit structure and all retirees under the DPS benefit structure are eligible for a premium subsidy, if enrolled in a health care plan under PERACare. Upon the death of a DPS benefit structure retiree, no further subsidy is paid.

Enrollment in the PERACare is voluntary and is available to benefit recipients and their eligible dependents, certain surviving spouses, and divorced spouses and guardians, among others. Eligible benefit recipients may enroll into the program upon retirement, upon the occurrence of certain life events, or on an annual basis during an open enrollment period.

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued) PERA Benefit Structure

The maximum service-based premium subsidy is \$230 per month for benefit recipients who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for benefit recipients who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The maximum service-based subsidy, in each case, is for benefit recipients with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The benefit recipient pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For benefit recipients who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, C.R.S. § 24-51-1206(4) provides an additional subsidy. According to the statute, PERA cannot charge premiums to benefit recipients without Medicare Part A that are greater than premiums charged to benefit recipients with Part A for the same plan option, coverage level, and service credit. Currently, for each individual PERACare enrollee, the total premium for Medicare coverage is determined assuming plan participants have both Medicare Part A and Part B and the difference in premium cost is paid by the HCTF or the DPS HCTF on behalf of benefit recipients not covered by Medicare Part A.

Contributions

Pursuant to Title 24, Article 51, Section 208(1) (f) of the C.R.S., as amended, certain contributions are apportioned to the HCTF. PERA-affiliated employers of the State, School, Local Government, and Judicial Divisions are required to contribute at a rate of 1.02 percent of PERA-includable salary into the HCTF.

Employer contributions are recognized by the HCTF in the period in which the compensation becomes payable to the member and the Town of Lake City is statutorily committed to pay the contributions. Employer contributions recognized by the HCTF from the Town were \$3,436 for the year ended December 31, 2021.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At December 31, 2021 the Town of Lake City reported a liability of \$31,922 for its proportionate share of the net OPEB liability. The net OPEB liability for the HCTF was measured as of December 31, 2020, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2019. Standard update procedures were used to roll-forward the total OPEB liability to December 31, 2020. The Town of Lake City proportion of the net OPEB liability was based on Town of Lake City contributions to the HCTF for the calendar year 2020 relative to the total contributions of participating employers to the HCTF.

At December 31, 2020, the Town of Lake City proportion was .0033559354 percent, which was an increase of .0000002594 percent from its proportion measured as of December 31, 2019.

For the year ended December 31, 2021, the Town of Lake City recognized OPEB expense (income) of (\$2,134). At December 31, 2021, the Town of Lake City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

| | Deferred Outflows of Resources | Deferred Inflows of Resources |
|---|--------------------------------|-------------------------------|
| Difference between expected and actual experience | \$85 | \$7,018 |
| Changes of assumptions or other inputs | 239 | 1,957 |
| Net difference between projected and actual earnings on OPEB plan investments | 0 | 1,305 |
| Changes in proportion and differences between contributions recognized and proportionate share of contributions | 662 | 2,741 |
| Contributions subsequent to the measurement date | 3,436 | N/A |
| Total | \$4,422 | \$13,021 |

\$3,436 reported as deferred outflows of resources related to OPEB, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net OPEB liability in the year ended December 31, 2022 Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| Year ended December 31, | |
|-------------------------|---------|
| 2022 | (2,918) |
| 2023 | (2,736) |
| 2024 | (2,730) |
| 2025 | (2,732) |
| 2026 | (867) |
| Thereafter | (52) |

Actuarial assumptions. The total OPEB liability in the December 31, 2019 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

| Actuarial cost method | Entry age |
|--|--|
| Price inflation | 2.40% |
| Real wage growth | 1.10% |
| Wage inflation | 3.50% |
| Salary increases, including wage inflation | 3.50% in aggregate |
| Long-term investment rate of return, net of OPEB plan investment expenses, including price inflation | 7.25% |
| Discount rate Health care cost trend rates PERA benefit structure: | 7.25% |
| Service-based premium subsidy | 0.00% |
| PERACare Medicare plans | 8.10% in 2020, gradually decreasing to 4.50% in 2029 |
| Medicare Part A premiums | 3.50% in 2020, gradually increasing to 4.50% in 2029 |

In determining the additional liability for PERACare enrollees who are age 65 or older and who are not eligible for premium-free Medicare Part A in the December 31, 2019, valuation, the following monthly costs/premiums (actual dollars) are assumed for 2020 for the PERA Benefit Structure:

Initial Costs for Members without Medicare Part A

| Medicare Plan | Monthly Cost | Monthly Premium | Monthly Cost Adjusted to Age 65 | | | | |
|---|-----------------|--------------------|--|--|--|--|--|
| Medicare Advantage/Self- Insured Rx | \$588 | \$227 | \$550 | | | | |
| Kaiser Permanente Medicare Advantage HMO | 621 | 232 | 586 | | | | |
| The 2020 Medicare Part A premium is \$458 (actual dollars) per month. | | | | | | | |

All costs are subject to the health care cost trend rates, as discussed below. Health care cost trend rates reflect the change in per capita health costs over time due to factors such as medical inflation, utilization, plan design, and technology improvements. For the PERA benefit structure, health care cost trend rates are needed to project the future costs associated with providing benefits to those PERACare enrollees not eligible for premium-free Medicare Part A.

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

Health care cost trend rates for the PERA benefit structure are based on published annual health care inflation surveys in conjunction with actual plan experience (if credible), building block models and industry methods developed by health plan actuaries and administrators. In addition, projected trends for the Federal Hospital Insurance Trust Fund (Medicare Part A premiums) provided by the Centers for Medicare & Medicaid Services are referenced in the development of these rates. Effective December 31, 2019, the health care cost trend rates for Medicare Part A premiums were revised to reflect the current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

The PERA benefit structure health care cost trend rates used to measure the total OPEB liability are summarized in the table below:

| | | Medicare Part |
|-------|-----------------|----------------------|
| | PERACare | Α |
| Year | Medicare Plans | Premiums |
| 2020 | 8.10% | 3.50% |
| 2021 | 6.40% | 3.75% |
| 2022 | 6.00% | 3.75% |
| 2023 | 5.70% | 3.75% |
| 2024 | 5.50% | 4.00% |
| 2025 | 5.30% | 4.00% |
| 2026 | 5.10% | 4.00% |
| 2027 | 4.90% | 4.25% |
| 2028 | 4.70% | 4.25% |
| 2029+ | 4.50% | 4.50% |

Mortality assumptions used in the December 31, 2019 valuation for the determination of the total pension liability for each of the Division Trust Funds as shown below were applied, as applicable, in the determination of the total OPEB liability for the HCTF. Affiliated employers of the State, School, Local Government, and Judicial Divisions participate in the HCTF.

Healthy mortality assumptions for active members were based on the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

Post-retirement non-disabled mortality assumptions for the State and Local Government Divisions were based on the RP-2014 Healthy Annuitant Mortality Table, adjusted as follows:

• **Males:** Mortality improvement projected to 2018 using the MP-2015 projection scale, a 73 percent factor applied to rates for ages less than 80, a 108 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

• **Females:** Mortality improvement projected to 2020 using the MP-2015 projection scale, a 78 percent factor applied to rates for ages less than 80, a 109 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

The mortality assumption for disabled retirees was based on 90 percent of the RP-2014 Disabled Retiree Mortality Table.

The actuarial assumptions used in the December 31, 2019, valuation were based on the results of the 2016 experience analysis for the period January 1, 2012, through December 31, 2015, as well as the October 28, 2016, actuarial assumptions workshop and were adopted by PERA's Board during the November 18, 2016, Board meeting.

Based on the 2020 experience analysis, dated October 28, 2020, and November 4, 2020, for the period of January 1, 2016, through December 31, 2019, revised economic and demographic assumptions were adopted by PERA's Board on November 20, 2020, and were effective as of December 31, 2020. The assumptions shown below were reflected in the roll forward calculation of the total OPEB liability from December 31, 2019, to December 31, 2020.

| | Trust Fund | | | |
|--|-------------------|--------------------|---------------------------------|----------------------|
| | State Division | School Division | Local Government Division | Judicial Division |
| Actuarial cost method | Entry age | Entry age | Entry age | Entry age |
| Price inflation | 2.30% | 2.30% | 2.30% | 2.30% |
| Real wage growth | 0.70% | 0.70% | 0.70% | 0.70% |
| Wage inflation | 3.00% | 3.00% | 3.00% | 3.00% |
| Salary increases, including wage inflati | on: | | | |
| Members other than State Troopers | 3.30%- 10.90% | 3.40%- 11.00% | 3.20%- 11.30% | 2.80%-5.30% |
| State Troopers | 3.20%- 12.40% | N/A | 3.20%- 12.40%¹ | N/A |

¹ C.R.S. § 24-51-101 (46), as amended, expanded the definition of "State Troopers" to include certain employees within the Local Government Division, effective January 1, 2020. See Note 4 of the Notes to the Financial Statements in PERA's 2020 Annual Report for more information.

The long-term rate of return, net of OPEB plan investment expenses, including price inflation and discount rate assumptions were 7.25 percent.

Rates of termination/withdrawal, retirement, and disability were revised to more closely reflect actual experience. Mortality assumptions used in the roll forward calculations for the determination of the total pension liability for each of the Division Trust Funds as shown below were applied, as applicable, in the roll forward calculation for the HCTF, using a headcount-weighted basis.

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

Pre-retirement mortality assumptions for the State and Local Government Divisions (Members other than State Troopers) were based upon the PubG-2010 Employee Table with generational projection using scale MP-2019.

Post-retirement non-disabled mortality assumptions for the State and Local Government Divisions (Members other than State Troopers) were based upon the PubG-2010 Healthy Retiree Table, adjusted as follows:

- **Males:** 94 percent of the rates prior to age 80 and 90 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.
- **Females:** 87 percent of the rates prior to age 80 and 107 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.

Post-retirement non-disabled beneficiary mortality assumptions were based upon the Pub-2010 Contingent Survivor Table, adjusted as follows:

- Males: 97 percent of the rates for all ages, with generational projection using scale MP-2019.
- **Females:** 105 percent of the rates for all ages, with generational projection using scale MP-2019.

Disabled mortality assumptions for Members other than State Troopers were based upon the PubNS-2010 Disabled Retiree Table using 99 percent of the rates for all ages with generational projection using scale MP-2019.

The mortality tables described above are generational mortality tables on a head-count weighted basis.

The following health care costs assumptions were updated and used in the roll forward calculation for the HCTF:

- Initial per capita health care costs for those PERACare enrollees under the PERA benefit structure who are expected to attain age 65 and older ages and are not eligible for premium-free Medicare Part A benefits were updated to reflect the change in costs for the 2020 plan year.
- The health care cost trend rates for Medicare Part A premiums were revised to reflect the then-current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

Actuarial assumptions pertaining to per capita health care costs and their related trend rates are analyzed and updated annually by the Board's actuary, as discussed above.

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four to five years for PERA. Recently this assumption has been reviewed more frequently. The most recent analyses were outlined in the Experience Study report dated October 28, 2020. As a result of the November 20, 2020, PERA Board meeting, the following economic assumptions were changed, effective December 31, 2020:

- Price inflation assumption decreased from 2.40 percent per year to 2.30 percent per year.
- Real rate of investment return assumption increased from 4.85 percent per year, net of investment expenses to 4.95 percent per year, net of investment expenses.
- Wage inflation assumption decreased from 3.50 percent per year to 3.00 percent per year.

Several factors are considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and then adding expected inflation.

The PERA Board first adopted the 7.25 percent long-term expected rate of return as of November 18, 2016. Following an asset/liability study, the Board reaffirmed the assumed rate of return at the Board's November 15, 2019, meeting, to be effective January 1, 2020. As of the most recent reaffirmation of the long-term rate of return, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the table as follows:

| | Target | 30 Year Expected Geometric |
|---------------------------|------------|----------------------------|
| Asset Class | Allocation | Real Rate of Return |
| Global Equity | 54.00% | 5.60% |
| Fixed Income | 23.00% | 1.30% |
| Private Equity | 8.50% | 7.10% |
| Real Estate | 8.50% | 4.40% |
| Alternatives ¹ | 6.00% | 4.70% |
| Total | 100.00% | |

¹ The Opportunity Fund's name changed to Alternatives, effective January 1, 2020.

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected nominal rate of return assumption of 7.25 percent.

Sensitivity of the Town of Lake City proportionate share of the net OPEB liability to changes in the Health Care Cost Trend Rates. The following presents the net OPEB liability using the current health care cost trend rates applicable to the PERA benefit structure, as well as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rates:

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

| | 1% Decrease in Trend Rates | | 1% Increase in Trend Rates |
|--------------------------------------|----------------------------|-----------|-------------------------------|
| Initial PERACare Medicare trend rate | 7.10% | 8.10% | 9.10% |
| Ultimate PERACare Medicare trend | 3.50% | 4.50% | 5.50% |
| Initial Medicare Part A trend rate | 2.50% | 3.50% | 4.50% |
| Ultimate Medicare Part A trend rate | 3.50% | 4.50% | 5.50% |
| Net OPEB Liability | \$106,482 | \$109,308 | \$112,596 |

Discount rate. The discount rate used to measure the total OPEB liability was 7.25 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Updated health care cost trend rates for Medicare Part A premiums as of the December 31, 2020, measurement date.
- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.00 percent.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date.
- Employer contributions and the amount of total service costs for future plan members were based upon a process to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- Estimated transfers of dollars into the HCTF representing a portion of purchase service agreements intended to cover the costs associated with OPEB benefits.
- Benefit payments and contributions were assumed to be made at the middle of the year.

Based on the above assumptions and methods, the HCTF's FNP was projected to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25 percent.

Sensitivity of the Town of Lake City proportionate share of the net OPEB liability to changes in the discount rate. The following presents the proportionate share of the net OPEB liability calculated using the discount rate of 7.25 percent, as well as what the proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

| | 1% Decrease | Current | 1% Increase |
|---|-------------|---------------|-------------|
| | (6.25%) | Discount Rate | (8.25%) |
| | | (7.25%) | |
| Proportionate share of the net OPEB liability | \$36,567 | \$31,922 | \$27,953 |

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

Detailed information about the HCTF's fiduciary net position is available in PERA's Annual Report which can be obtained at www.copera.org/investments/pera-financial-reports.

Note 7 Risk Management

Risk Management Insurance Pool

The Town is self-insured for property and liability insurance. In order to mitigate risk, the Town is a member of the Colorado Intergovernmental Risk Sharing Agency ("CIRSA") and Colorado Intergovernmental Risk Sharing Agency Worker's Compensation ("CIRSA/WC"). CIRSA and CIRSA/WC have a legal obligation for claims against their members to the extent that funds are available in their annually established loss fund and amounts are available from insurance providers under excess specific and aggregate insurance contracts. Losses incurred in excess of loss funds and amounts recoverable from excess insurance are direct liabilities of the participating members. CIRSA and CIRSA/WC have indicated that the amount of any excess losses would be billed to members in proportion to their contributions in the years such excess occurs, although they are not legally required to do so. Additionally, the Town may receive credit on future contributions in the event of a surplus.

CIRSA has entered into various excess insurance contracts to limit large losses and minimize exposure on large risks. Excess of loss contracts in effect during 2021 limit CIRSA's per occurrence exposure to 100% of \$5,000,000 in excess of \$1,000,000 per claim for property coverage, and 100% of \$500,500,000 in excess of \$500,000 per claim for excess property coverage and provide coverage to specified upper limits. The excess of loss contract for workers' compensation coverage limits CIRSA's per occurrence exposure to \$500,000 for 2021 and provides coverage to statutory limits for the State of Colorado. The ultimate liability to the Town resulting from claims not covered by CIRSA and CIRSA/WC is not presently determinable. Management is of the opinion that the final outcome of such claims, if any, will not have a material adverse effect on the Town's financial statements.

Note 8 Tax, Spending, and Debt Limitation

Article X, Section 20 of the Colorado Constitution, The Taxpayer's Bill of Rights (TABOR), contains several limitations, including revenue raising, spending abilities, and other specific requirements of state and local governments. TABOR is complex and subject to judicial interpretation. The Town believes it is in compliance with the requirements of TABOR.

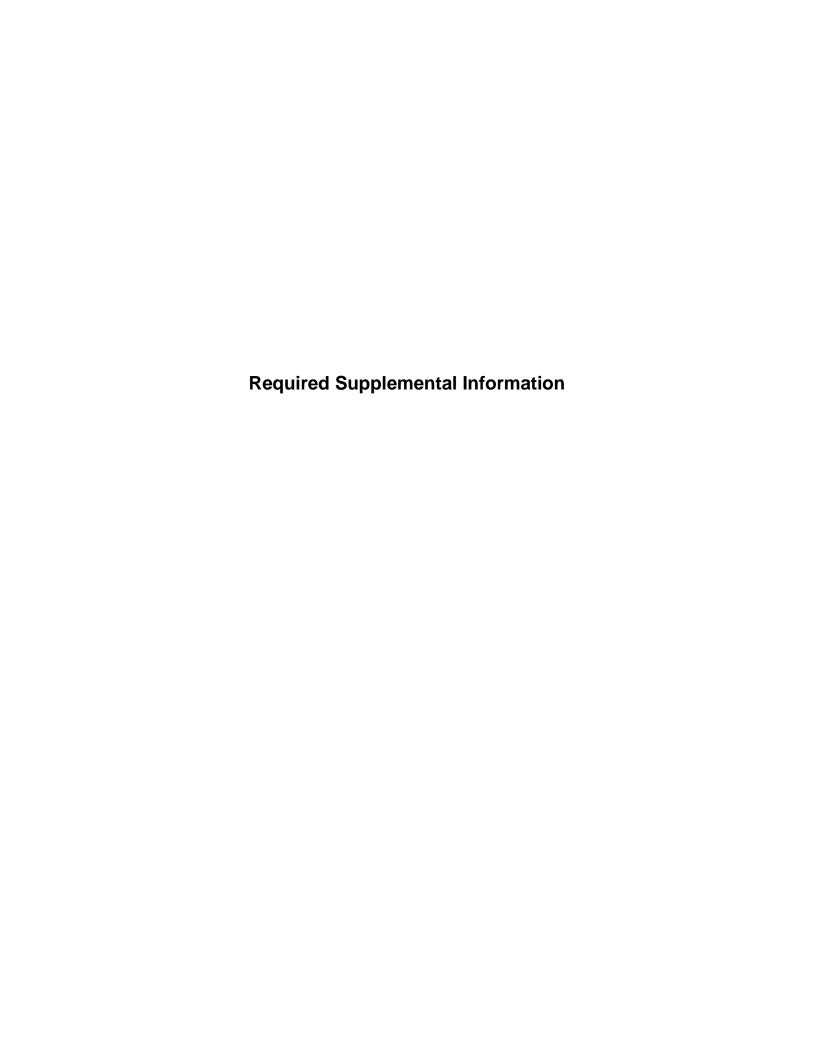

Spending and revenue limits are determined based on the prior year's fiscal year spending adjusted for allowable increases based upon inflation and local growth. Fiscal year spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the fiscal year spending limit must be refunded unless the voters approve retention of such revenue.

TABOR requires local governments to establish emergency reserves, which must be at least 3% of fiscal year spending, excluding bonded debt service. Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls or salary or benefit increases. This Town had an emergency reserve of \$33,014 as of December 31, 2021.

In November 1994, the voters within the Town approved the collection, retention and expenditure of the full revenues generated by the existing 4% sales and use tax. The voters of the Town of Lake City, Colorado passed a second ballot issue in 1999 authorizing the Town to collect and

Note 8 Tax, Spending, and Debt Limitation (Continued)

expend the full revenues generated during 1998 and each subsequent year, from its existing tax rates, to receive and expend state grants and funds from other sources and to receive and expend all sales and property tax revenues without limitations or condition and without limiting the collection or spending of any other revenues or funds under Article X, Section 20 of the Colorado Constitution or any other law.

Town of Lake City, Colorado Budgetary Comparison Schedule General Fund For the Year Ended December 31, 2021

FORM FHWA-536e(Version 8.00) - CY21

LAKE CITY DIRT

STRATEGIC PLAN 2022-2027

Lake City DIRT is the organizational name for Lake City's Main Street program. Lake City DIRT (Downtown Improvement & Revitalization Team), is a nonprofit organization that

partners with the Town of Lake City, Hinsdale County, and other partners to enhance economic vibrancy and celebrate community and our heritage.

VISION STATEMENT

Lake City DIRT supports business sustainability by cultivating the historic, artistic, and aesthetic beauty to create a vibrant downtown district beloved by the community and visitors alike.

MISSION STATEMENT

Lake City DIRT's mission is to cultivate strong local businesses by broadening our economic base and enhancing our community's beauty, pride, and vibrancy by connecting resources, people, and opportunities. We endeavor to preserve our downtown with a specific focus on our cultural, historical, and natural resources.

TRANSFORMATION STRATEGIES

Lake City DIRT executes on its Mission and strives to achieve its Vision through its focus on four Transformation Strategies. These four Transformation Strategies define the organization's priorities and serve as the foundation for goal setting and projects Lake City DIRT undertakes. Our work aligns with and is a result of collaborative partnerships with the town, community

- 1. Local & Regional Convener
- 2. Local Business Attraction & Retention (Vibrancy)
- 3. Arts & Events
- 4. Downtown Aesthetics & History/Heritage

stakeholders, area organizations and businesses.

COLORADO

Department of Local Affairs

Goals & Projects

Goals and projects define how DIRT will begin executing on each Transformation Strategy through effective planning that takes into account the different methods needed to achieve their focus.

Local & Regional Convener

Goals & Projects

- Ensuring Lake City DIRT has a seat at the table
- Connecting different organizations and opportunities
- Coordinating efforts to prevent duplication
- Pursuing technical assistance, leveraging funding
- Lake City DIRT provides focused support to the "Big 5" key town initiatives (night skies, winter tourism, scenic byway, childcare, workforce housing) – sharing information updates, identifying funding opportunities, hosting/supporting small town summits and linking others to their web sites and activities

Local Business Attraction & Retention (Vibrancy)

Goals & Projects

- Manage the co-work HUB business space (remote work promotion, technology HUB)
- Serve as a local/regional business incubator & entrepreneurial support, workshops, education (collaboration between DIRT/Chamber)
- Support and facilitate a revolving loan program
- Manage /Coordinate façade improvement projects and funding
- Cultivate vacant business promotion & absent owner outreach
 - Business occupancy opportunities
 - Seasonal decoration coordination with closed businesses
- Identify temporary space use during events
- Develop business recruitment strategies for niche businesses
- Coordinate with businesses to promote extended hours/days during high season
- Explore business diversification strategies to expand income (café selling hot sauces)

Arts & Events

Goals & Projects

- Host, support or advocate for pop up art events such as a chalk wall or stump carving to attract community residents
- Identify a location and potential to create a unique, iconic, larger than life art project (such as Breckenridge troll, or similar art in downtown Grand Junction)
- Continue to promote and organize existing events
- Explore potential opportunities for events to attract people downtown during the shoulder season
- Work collaboratively with the Art Center goals to enhance artist opportunities and public art in downtown
- Collaborate with the Library to host "story walks " in the downtown

Downtown Aesthetics & History/Heritage

Goals & Projects

- Support Ute Ulay by providing grant support for interpretation, signage, brochures, walking tours, pen stock/ flume stabilization, environmental remediation and for restoration of the mill
- Better utilize public spaces and identify opportunities for new gathering places that create opportunities for people to stop, linger and enjoy the downtown
- Coordinate with the town and businesses to continue to enhance the attractiveness of downtown by providing lights, banners, hanging flowers and other aesthetic improvements
- Advocate for advancement of multi-modal safety & connectivity, pedestrian pathways and parking assessment recommendations
- Implement wayfinding recommendations (pending funding)
- Coordinate with Hinsdale County Historic Society for partnership grants, interpretative signage and marketing collateral

Town Manager Report

- Continue to work on Affordable Workforce Housing, met with DOLA (DOH) and CHFA as well as the County.
- 2021 Audit Complete
- Completed the First CPM Class next one will be in September
- Starting the certified public manager program through CU-Denver in August
- Working on the 2023 Budget, will first be presented the 2nd meeting of September.
- The 2023 Manager's Contract will be presented in September
- Personnel Policies to be presented first September Meeting
- Working on Applying for the Grant and the Loan for the WWTP

Vance Lipsey <townmanager@townoflakecity.co>

Leave of Absence

Dave Roberts daveroberts@townoflakecity.co To: Vance Lipsey <townmanager@townoflakecity.co> Wed, Aug 3, 2022 at 5:25 PM

Vance,

Please share with the board.

Hello Trustees,

Due to the fact the bacterial staff infection I was cleared of decided to hide in my hip and come back with a vengeance I am back to square one in fighting it but with a different treatment. Per the advice of my Doctors I am not working for the next 7 to 8 weeks to convalesce and regain my health to the best it can be. For this reason I am requesting a leave of absence for 8 weeks from my Mayoral duties without repercussion of our minimum attendance policy. If at any time my Doctors feel I have improved enough, I will be back sooner.

I will do my best to stay in the loop by watching the meetings when they are posted on our website.

If any trustees would like to discuss this in more detail feel free to call me at 970-944-7777.

Thanks for your consideration one this matter,

Dave Roberts
